01. Project Description.

- Blinkee.com offers a wide range of glow-in-the-dark toys, flashing jewelry, blinking pins, light-up accessories, and party supplies for various events and celebrations. The site specializes in battery-operated light-up products, including glow sticks, fiber optic toys, and LED gadgets. Customers can purchase items such as light-up swords, wands, and wearable accessories. Whether you're hosting a party, attending a festival, or simply looking for fun, glowing toys, Blinkee.com provides affordable options with bulk discounts available.

- The reason for choosing this web application for our project is that it has a lot of usability issues, and it has enough web pages for each member to redesign. This website has poor design and also buttons are not working sometimes. As a group we have decided to redesign this website for it to be much better.

02. Alternatives considered.

- YALE School of Art
  https://www.art.yale.edu/

- Riyasewana https://riyasewana.com/

- April Sweets https://www.aprilsweets.com/

- Love Kupcakes
  http://www.lovekupcakesinc.com/

- Takas https://takas.lk/

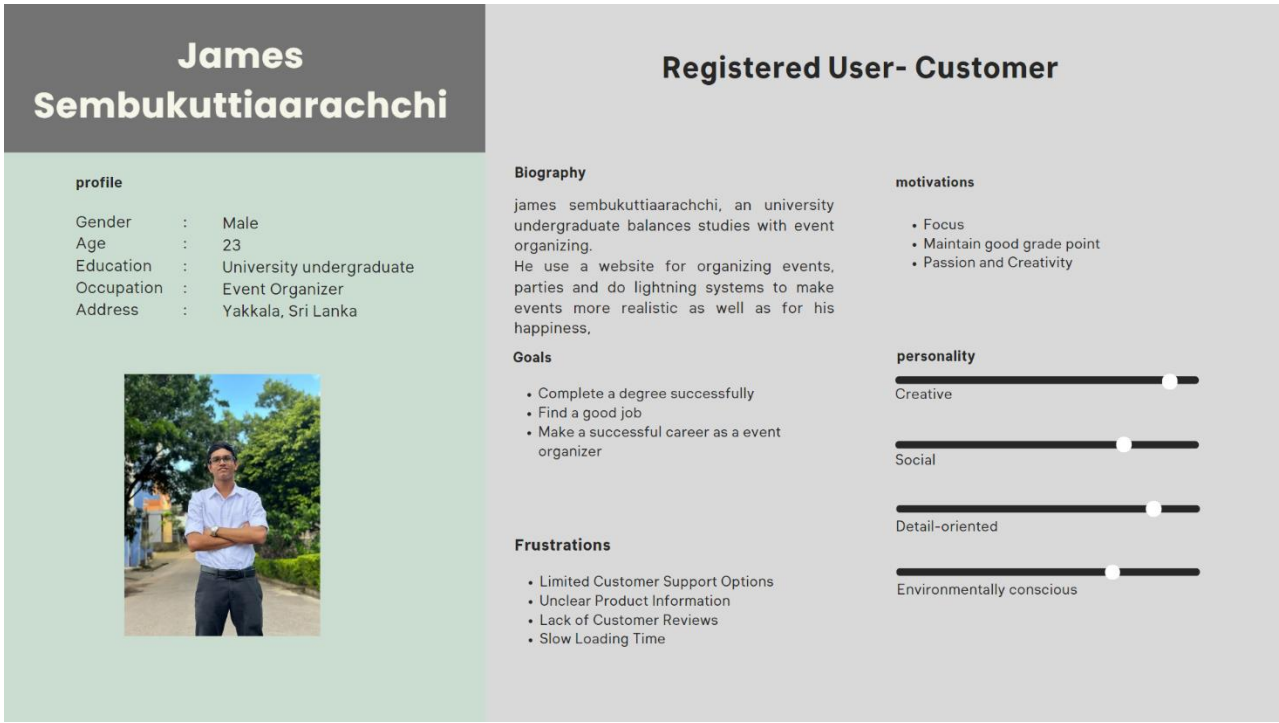
03. User Groups Identified

- Expertise User
  - Registered User – Customer
  - Registered User – Supplier

- Novice User
  - Unregistered User

04. Three Personas for selected

- Persona No 1: Registered User – Customer



✞ Persona No 2: Registered User – Supplier

Hana anees

Registered User- Supplier

profile

Gender : Female
Age : 28
Education : Bsc software engineering (SLIIT)
Occupation : Associate consultant at Virtusa
Address : kandy, Srilanka

Biography

Hana Anees works as a senior full stack developer and associate consultant at virtusa. She has a distinguished career in software engineering and delivers outstanding results.

Goals

- Develop more skills in artificial intelligence.
- Looking for more effective ways to work.
- Looking for promotion

Frustrations

- Unclear onboarding process
- Limited control over product listings
- Lack of marketing support
- Limited customization for supplier storefronts

motivations

- Focus
- Work performance
- Friends & family

personality

Energetic

Thinking

Environmentally conscious

Trustworthy

✞ Persona No 3: Unregistered User

Buddini Weearathunga

Unregistered User

PROFILE

Gender : Female
Age : 22
Education : Undergraduate
Occupation : Student at SLIIT
Address : Thalawathugoda,Sri Lanka

BIOGRAPHY

Buddini is an undergraduate student at SLIIT. She is interested in Software engineering and also she likes to search for and try new things. Nowadays she has to research about party events.

GOALS

- Interesting in hollywood films
- Listning music
- Searching about new things

FRUSTRATIONS

- Slow Loading Time
- Incomplete details about the products.
- Out of stock the products she wants.

MOTIVATIONS

- Maintain good grade point average
- Prefer to learn Guitar.
- Interested in Technology.

PERSONALITY

Energetic

Passionate

Friendly

Thinking

05. Usability issues identified by the students

1. The interfaces are not user friendly.
2. Confusing Navigation
3. The header & footer are cluttered.
4. Images are not clear enough.
5. Login and Register on the same page.
6. Poor button design.
7. Two search bars on the Home page.
8. No feedback.
9. Website is not responsive as a modern website.
10. The UI design and color variants look a bit older.
11. Slow loading time.
12. The homepage needs some modification.
13. Lack of customer reviews or ratings to aid decision-making.
14. Bad first impression.

06. Scripts for contextual inquiry for 3 users

Background description of the user	**Questions to be asked from the user**	**Tasks to be given to the user**
Persona No 1: Registered User – Customer	• How often do you use this website? • In your experience, how does finding information on this website compare to traditional advertisements in newspapers and magazines? • Have you encountered any particular issues or disturbances while using Blinkee.com? • How would you describe the overall design of the website? • That's useful feedback. Do you find it challenging to interact with or navigate the website? • How satisfied are you with the product range offered on the website? Is there	➢ Log in to account and update profile. ➢ Search the available products/services and add items to the cart. ➢ Complete a purchase and provide feedback on the checkout process. ➢ Check the order history and download invoices.

	anything you feel is missing? • How do you feel about the pricing and value for money on Blinkee.com? • How easy was it to find customer support or help resources when you needed assistance? • Have you had any experiences with the checkout process? Was it smooth, or did you encounter any difficulties? • What overall improvements would you suggest for Blinkee.com to enhance the user experience?	
Persona No 2: Registered User – Supplier Hana Anees works as a senior full stack developer and associate consultant at virtusa. She has a distinguished career in software engineering and delivers outstanding results.	• How often do you use blinkee? • How good is the login UI according to you as a registered user ? • Do you like the way they have combined LOGIN and the REGISTER form under the same page ? • What's your view about the My account page ? • Do you experience a good time browsing products ? • Are you satisfied with the navbar and the footer? • What your opinion about their choice of color ? • What are your suggestions as a weekly user to improve the User experience of blinkee ?	➢ Log in to the system and update or check the profile. ➢ List new products and manage existing ones. ➢ Monitor and respond to customer inquiries or orders. ➢ View and analyze sales reports and trends. ➢ Update your product inventory and pricing information.
Persona No 3: Unregistered User Buddini is an undergraduate student at SLIIT. She is interested in	• Why have you visited the Blinkee.com website recently? Did you find what you are looking for?	➢ Get into the website to search available products/services without logging in.

Software engineering and also she likes to search for and try new things. Nowadays she has to research about party events.	• What was your first impression of the website as a new user? • What are the main differences between Blinkee.com and other LED-themed websites? • Do you have any thoughts about your experience of this website? • Were you able to find and read product reviews without registering? • As a new user (a public visitor), did you face any difficulties when going through the website? If so, what were those issues?	➢ Use the search function to find specific products/services. ➢ Attempt to add items to the cart and proceed to checkout (ask for registration). ➢ View supplier profiles and customer reviews. ➢ If buy the product, can register the web site.

07. Three video links

https://drive.google.com/drive/folders/1yWRGBdWN_nGjiZsKZdtZOcZ5dfjln4I4?usp=sharing

08. Usability issues identified based on contextual inquiry

Interface name	Usability issue
Home Page	• Cluttered header • Outdated and poor overall design • Inconsistent pricing display • Excessive website texts and links • Bad first impression • Poorly structured links • Unclear navigation • The Footer itself has a logout button • The navbar has the product filter function as a drop-down • Existence of two search bars in the navbar

	• Too much buttons given in navbar and footer
Return Policy page	• Inconsistent navigation • Poor color combination • Lack of visual hierarchy • Lack of clear structure
Products Page	• Some images are not clear enough • Poor content layout • Poor color combination • Bad first impression • Icons not using properly • Inconsistent product information • Complex and lengthy process • The filter function is included in the navbar itself • No proper alignments of items • Item image allocates more space than needed
Account Page	• Bad form design • Small texts • Bad first impression • Login and Register on the same page • The external links are not properly highlighted
Custom blinkee Page	• Too small texts • Bad first impression • Too many form content • Poor form design • Excessive website texts • Information overload
Contact us Page	• Too small texts • Poor form design • Poor element placement • Excessive website texts • Low contrast texts
Blinkee Blog Page	• Content is difficult to browse • No clear categorization. • Too small text • Poor form design

09.Ratings of the Usability problems as high medium and low

User Problem	Ratings
The interfaces are not user friendly.	High
Confusing Navigation	High
The header & footer are cluttered.	Medium
Images are not clear enough.	Medium
Login and Register on the same page.	Low
Poor button design.	Medium
Website is not responsive as a modern website.	High
Two search bars on the Home page.	Medium
No feedback.	High
The UI design and color variants look a bit older.	Medium
Slow loading time.	High
The homepage needs some modification.	High
Bad first impression.	High
Lack of customer reviews or ratings to aid decision-making.	High
